# #SANTINIPEOPLE

Perfection is in our DNA. It's a never-ending quest. We are driven to deliver and inspired by the elite sporting culture we inhabit. We've refined our manufacturing techniques, discovered new fabrics, improved our designs and sought out extra performance where seemingly none existed before. Our philosophy is based on the four pillars of Fit, Performance, Comfort and Durability. Every garment is engineered to our highest standards. Designed for cyclists of any level. For those

competing at the highest level, to those who do it purely for the sense of freedom that cycling provides. Santini is for those who value passion and appreciate attention to detail. For those who want to feel that rich heritage of cycling history wrapped up in a single garment. We'll do what it takes to enable you to ride faster, further and longer, in unmatched style and comfort, while feeling that same burning passion that drives us to be the best. **The best we can be.**

# **FIT. PERFORMANCE. COMFORT. DURABILITY.**

Honesty. That's what makes Santini special. All our collection garments have been produced in Italy since 1965.

We invest extensively in R&D to find fabrics and production techniques that will create a better cycling experience.

We design every garment ourselves to fulfill our four brand promises - Fit, Performance, Comfort and Durability. So when you buy Santini, you're buying a guarantee that each garment will fulfill its purpose for a lifetime of use. Whether that's keeping you warm and dry in winter training, or cool, comfortable and aerodynamic while the summer racing.

**That is our passion. This is our promise.**

## **Why choose SANTINI**

### **FOUR PROMISES DEFINE EACH AND EVERY SANTINI GARMENT**

#### **FIT.**

"We feel that great cycle clothing should fit so well that you don't even notice it," Monica Santini, Santini CEO.

At Santini we strive to create garments that fit like a "second skin", it is what we are best known for.

#### **PERFORMANCE.**

Santini is a technology pioneer and pro supplier. From our world class chamois technology to our materials research, our aim is to make sure that every Santini product provides you with maximum performance in the saddle.

#### **COMFORT.**

Each garment is in engineered to provide unsurpassed comfort in the saddle, from the materials selected to the strategic placement of each seam.

#### **DURABILITY.**

Santini Cycling Wear is Made in Italy by our highly skilled production staff with the highest quality materials. Each garment undergoes vigorous quality controls and will last a lifetime.

Get an edge on the bike leg

# REDUX S/S TRISUIT

CODE: **S9 774 GTR REDUX**

**AERO DESIGN**

Stretch woven fabrics and thermo-welded cuffs engineered to reduce drag and increase aerodynamics

**ADVANCED TRIATHLON ENGINEERING**

Made from a combination of extremely lightweight, fast drying and UV resistant (UPD 50+) fabrics

**NON-ABSORBENT CHAMOIS**

GTR chamois with gel core for comfort without water-absorbance

AF

This aero engineered short sleeve trisuit is constructed with a special combination of performance fabrics to achieve a tailored-fit. Built to perform at its best during the bike section, this trisuit will fit so well you will forget you are wearing it. The upper section is made of the new Prey Cool fabric, lightweight, extremely aerodynamic and UV resistant (UPF 50+) with elasticated Flow inserts. An engineered rough surface of the fabric is used in the point of delamination of the airflow to reduce drag. The perfect shape is maintained by elastic leg grippers with honeycomb silicon grips on the inside of the legs and the thermo-welded cuffs. The legs are made from Fitter, a special fabric designed to reduce muscle stress thanks to its slightly compressive effect helping you perform at your best from start to finish. Double rear pocket with side opening. Featuring our GTR chamois, designed specifically for triathlon events. It has a silicone gel core with strong anti-shock properties, covered with a thin fabric shield. It weighs just 42g and doesn't absorb water - so it doesn't grow in dimension or weight during the swim or cause irritation in the ride. Plus an antibacterial and anti-irritation microfibre layer in contact with the skin that ensures maximum comfort on the saddle.

## TECHNICAL FEATURES

We design for the most demanding riders on the planet. They judge our clothing based on fit, performance, comfort and durability. The fabric is the critical component that gives us the edge. We source and develop fabrics and fibres with specific qualities, such as breathability or insulation, and combine them in advanced ways to enhance their performance. We use special coatings and treatments to create garments that perform at the highest level in a range of climates and conditions. Our aim is to provide every rider with the same features and benefits we give our professional teams. Performance without limitation.

### ACQUAZERO TREATMENT

Sitip's ACQUAZERO treatment makes fabric reliably water-resistant (ISO 29865 certified) for the first 60 minutes of use without compromising comfort, elasticity, softness, or warmth. It also ensures maximum breathability, makes the fabric UV and chlorineresistant, and guarantees excellent durability after repeated uses and laundering.

### FLAT STITCHINGS

We work together with some of the fastest riders in the world to create and refine the most aerodynamic performance clothing on the market and our top range garments use the most advanced technologies. The evolution has allowed the adoption of flat "seams" made with cutting-edge technologies where the materials are joined and coupled without the use of wires.

### ZIP CAM-LOCK

All the zippers we employ feature a cam lock zip closure. This technology protects you from pulling down your zipper inadvertently. When the pull is down it locks the zipper in place, to open the zipper simply raise the pull and unzip (or zip).

### MUSCLE COMPRESSION

Many of our garment's fabrics offer a gradual compression that helps muscle recovery by facilitating the passage of oxygen into the blood of the legs and thus increasing muscle stability and improving pedaling efficiency.

### FAST DRY

All our garments have a high level of ventilation because it is extremely important to grant the highest breathability level during the ride. All our fabrics helps to keep you dry during your trainings and races in every weather condition.

### UV PROTECTION

Most of the fabrics we use for our summer garments have a high UVA/UVB (UPF 50+) resistance to protect your skin while ensuring comfort and breathability.

# PADDINGS

Each and every Santini padding is designed and engineered in Italy and are the result of extensive studies and testing carried out with our pro athletes. Our range includes men, women, kids and triathlon specific paddings, all designed to guarantee unrivaled fit and maximum protection over medium and long distances.

## GTR TRIATHLON

GTR is the Santini chamois designed to cope with the unique demands of triathlons, wear wet clothing is worn for cycling. Made of a thin layer of silicone gel with strong anti-shock properties, it weighs less than 42g and doesn't absorb water - so it doesn't grow in dimension or weight during the swim. Placed in contact with the skin is an antibacterial and anti-irritation microfibre layer that ensures maximum comfort on the saddle.

# #SANTINIRIATHLON

## HERE ARE THE NUMBERS:

**1000 km** touring around the spectacular Gran Canaria. **70 hours** of photo shoots resulting in **22,000** pictures. **240** coffees fuelled the rides. Plus **180** glasses of fruit juice. **5kg**

of mandarin oranges. **2kg** of nuts devoured in the tropical paradise. **30** dives into the sparkling coastal waters. And **6** punctures for pause and reflection.

**MARCUS ENNO “BEARDY McBEARD”**

## CREDITS

A massive thank you to all the people who helped during the photoshooting for the Summer collection catalogue. Benjamin and the staff of **FREEMOTION** for the 24/7 support, hospitality and bikes. **TREK SPAGNA** and **VADEBICI TELDE** for the bikes. Marco and Andrea from **KASK** for the helmets. Juan from the **ALBARICOQUE** Restaurant in Fataga for the warm hospitality.

**FIT.  
PERFORMANCE.  
COMFORT.  
DURABILITY.**
